

We, at CBCC Global Research understand that our clients have chosen us to make their vision, a reality. Upholding their trust is our foremost responsibility.

We leverage therapeutic knowledge, technical expertise, our experience and technology to provide quality solutions that meet or exceed the clients' expectations within committed timelines. Our services comply with applicable national and international guidelines and regulations whilst maintaining confidentiality, transparency and integrity.

Management has inculcated a quality culture where personnel understand that data integrity is an organizational core value. All personnel are encouraged to identify and promptly report the data integrity issues to followings:

**Director**

Quality Assurance
